

SKETCHING A HOUSEHOLD ITEM

On an **A-size sheet** of plain paper do the following:

- Sketch a border **approximately** $\frac{1}{4}$ " from the paper's edge.
- Draw a horizontal line **approximately** $\frac{1}{2}$ " from the **bottom border line** for a title block area. Divide this title block into four sections for your **name, school, date** and **hour**. **Neatly** fill in this information.
- Set up your drawing page in the "glass box" format as discussed in class. (*Hint: if you do not remember in which order the views go refer to the picture below.*)
- Sketch the top, front, bottom, right, left and rear (*back*) views of the object in the appropriate locations. The object you choose must have some straight line and circular lines on it.
- All views are to be **labeled underneath** the sketch themselves.
- Place the **object's title** at the **top of the page**.

What is the teacher looking for?

1. Neatness in sketching and lettering and overall layout of drawing.
2. Ability to follow written and verbal directions. (Seg. 0)
3. Demonstrate sketching techniques (Seg. 2)
4. Demonstrate basic layout drawing (e.g. borders and information blocks) (Seg. 2)
