Final Vehicle Design Presentation

You will create a final presentation of your designed vehicle. You will need to include the following:

Presentation Board: 24x36 size, Compiled in Photoshop or other electronic means.

- Title
- Your Name and Date
- Design Objective Statement. Minimum two paragraphs. Images if necessary
- Precedent Design Research. Minimum one paragraph. Images as necessary.
- Defined Customer Base. Include all information required in the research portion.
- Inspirations- Minimum one paragraph. Images as necessary.
- Your vehicle final sketch(s). Drafts if necessary
- Board should be well organized and visually pleasing.
- Backgrounds and additional color to board should support the overall presentation, not overtake it.
- No spelling or grammatical errors.
- Source citations as necessary.

Vehicle Clay Model

- Scale model that represents the student's designed vehicle.
- Model can be painted or left unpainted
- Model attached to a solid surface board.
- Title, Name and Date placed on solid surface board
