

Architectural Kitchen Design Project Project Requirements

This project will be a comprehensive design of a custom residential kitchen. You will become the interior designer in this project. You will be responsible for all aspects of the kitchen design including:

- The location of the upper and lower kitchen cabinets and appliances in the floor plan. **(Floor Plan)**
- The style and type of door handles and drawer pulls for this kitchen design, including: Brand name, color, finish, size and price. **(Elevations/Schedule)**
- The countertop material, brand name, texture and manufacturer selected for this kitchen design - including price. **(Elevations/Rendering/Schedule)**
- The backsplash material, brand name, texture and manufacturer selected for this design including price. **(Elevations/Rendering/Schedule)**
- The brand name, size, color, and price of all kitchen appliances, including: stove, refrigerator, sink, faucet, Microwave, garbage disposal, and dishwasher. **(Elevations/Rendering/Schedule)**
- The flooring material, brand name, style, texture, color and price. **(Rendering/Schedule)**
- The type of lighting fixtures, brand name, quantity and price. **(Rendering/Schedule)**
- The wall and ceiling covering, color, texture and price. **(Elevations/Rendering/Schedule)**

Design Elements To Be Included in Your Presentation

You will be responsible for a final presentation of your design including:

- Kitchen Floor Plan - scale: $\frac{1}{2}'' = 1'$ or $\frac{1}{4}'' = 1'$.
- All cabinet elevations - scale: $\frac{1}{2}'' = 1'$ or $\frac{1}{4}'' = 1'$.
- Perspective Rendering or photo realistic rendering of the kitchen.
- All material schedules.
- Formal power point presentation of your design, or a 'story board' presentation of your drawings and schedules.
- All floor plans, elevations, rendering etc. to be clearly read, titled, noted, scaled, etc.
- Name, Date and Title
