

## Filling out your Door and Window Schedule in REVIT

- **DOOR SCHEDULE:** CHANGE ALL HEADINGS TO READ IN CAPITAL LETTERS and set the alignment to be center justified.

**MARK:** This is the number that was assigned to the door, which will show up on the plan and elevations and you do not need to change it.

**TYPE:** This is a number that designates the type of door. For example, all hollow core doors in one style in your project may be a #2 type and hollow core doors of another style may be #4 type.

### DOOR

**WIDTH:** The width of the door.

**HEIGHT:** The height of the door.

**THICKNESS:** The thickness of the door.

**MATERIAL:** Possible materials include hollow wood, solid wood, fiberglass, MDF (Medium Density Fiberboard), Aluminum, Vinyl, Steel, Glass,

**FINISH:** Is the door painted, stained, etc.

**FIRE RATING:** LIST the UL Label as noted below.

### Chart of Door Ratings and UL Labels

UL LABEL	RATING	RATING
A	3 HR	180 MIN
B	1 1/2 HR	90 MIN
C	3/4 HR	45 MIN
D	1 1/2 HR	90 MIN
E	3/4 HR	45 MIN
	1/3 HR	20 MIN
S	SMOKE	SMOKE

UL Labels D and E are for exterior doors that are subject to fire hazards f

**HARDWARE:** This is typically listed as hardware sets, for example all interior doors with "X" type of handle, "Y" type of hinge, and "Z" type of locking will be hardware set "A" or "1".

### FRAME

**FRAME TYPE:** This is a number that designates the type of frame. For example, all frames that are 6'-0" x 8'-0" hollow metal in your project may be a #1 type and all frames that are 3'-0" x 8'-0" wood are #2 type.

**FRAME MATERIAL:** Vinyl, Wood, Fiberglass, Aluminum, Hollow Metal, etc.

**FRAME FINISH:** painted, stained, etc.

**FRAME JAMB:** *Delete this column*

**FRAME HEAD:** *Delete this column*

**COMMENTS:** Any extra information that would have to be included.

- **WINDOW SCHEDULE:** CHANGE ALL HEADINGS TO READ IN CAPITAL LETTERS and set the alignment to be center justified.
